There are the occasional anomalies in the scoring system where two triathletes get the same points score on the spreadsheet, this is only because the points are recorded to the nearest whole number. In the event of a tie the calculations can be more accurate.

Tristar 1 – An athlete's best 3 results will count towards their final series score of which will include 1 triathlon.

Tristar 2 & 3 – An athlete's best 3 results will count towards their final series score of which 1 will be triathlon and 1 open water race.

Youth – An athlete's best 3 results will count towards their final series score of which 2 will be triathlon and 1 open water race.

Junior best 3 races to count.
